

Saab 95

Born from jets.

Saab was founded by 16 aircraft engineers and their high performance spirit lives on. Our cars are designed in the heart of Scandinavia. Where nature and its elements are not simply a backdrop, but always an active participant – from cold winters to hot summers. For us at Saab, the extreme and unpredictable seasons are simply a part of everyday life. Inspiring us to design sporty, spirited cars that combine driving exhilaration with ingenious utility. Just test drive the Saab 9-5 Sedan and SportCombi – and get ready for takeoff.

It's in our genes.

Step into the cockpit of the Saab 9-5. Grab the wheel. Feel the inspiration. Our aircraft heritage is alive and kicking. The proof is in the driver's environment, the immense power at hand and that sensational feeling of control. And of course, advanced aerodynamics that keep you firmly on the ground.

Innovation on a higher plane.

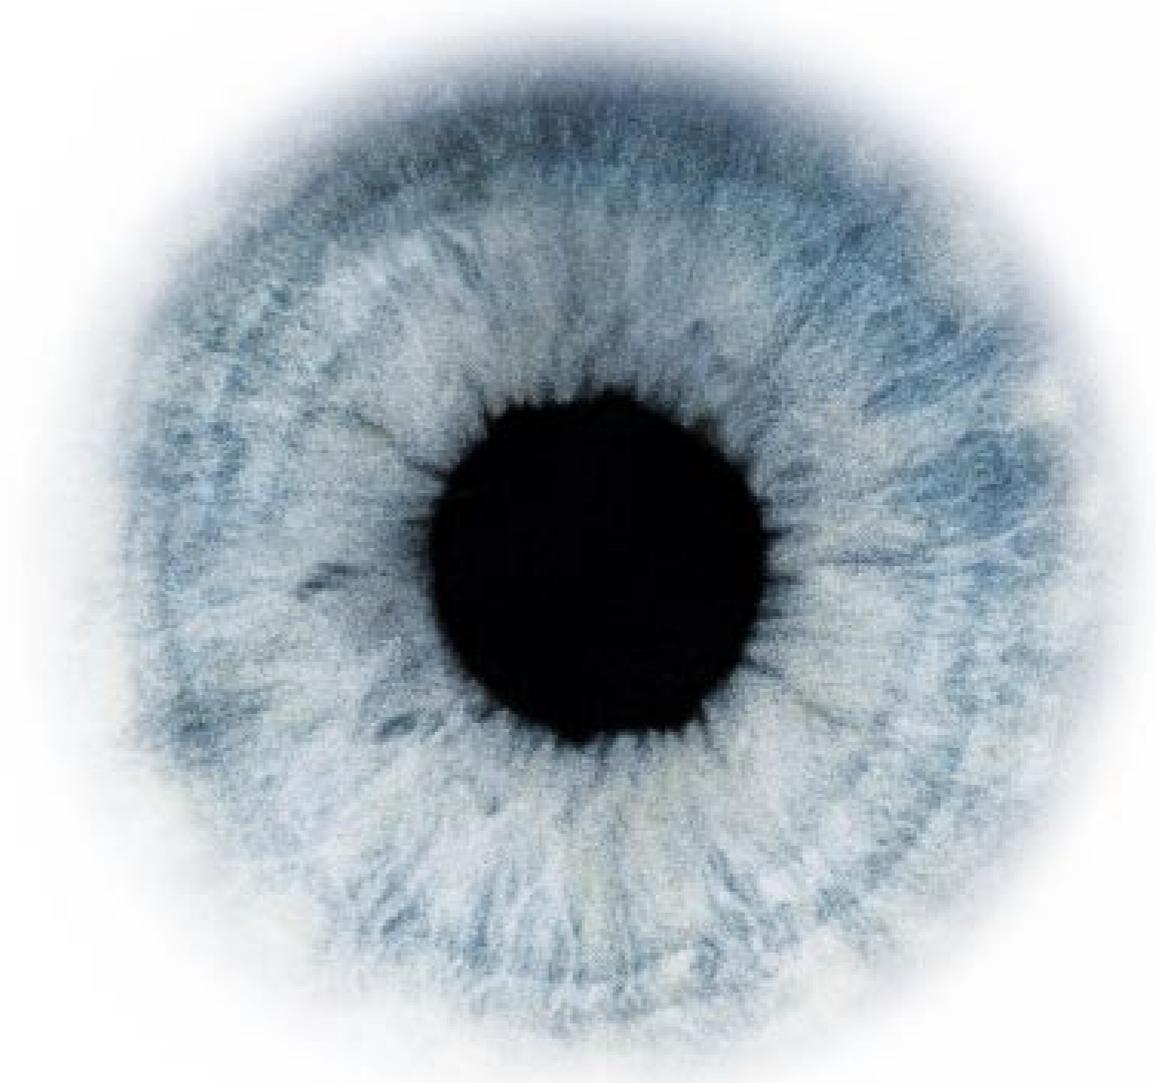

Scandinavian approach to design combined with a unique aircraft heritage. No wonder creative thinking runs free at Saab. Especially when it comes to pioneering turbo technology, new eco-friendly engine concepts and cutting-edge safety work. Resulting in innovative solutions you'll appreciate in everyday driving. Not to mention all the functional features in the Saab 9-5 that help boost your quality of life. Just go ahead and fly.

ComSense

A focused driver is a safer driver. That's why the Saab 9-5 cockpit integrates our innovative ComSense concept. It's a range of intelligent features designed to reduce distraction and help you stay focused on the road ahead. Like the system that is designed to briefly delay lower priority alerts when you turn or brake. And the unique Saab Night Panel – designed to help make things easier when you drive at night.

Pilots wanted.

The ergonomic cockpit is designed around the driver. The most frequently used controls are within convenient reach and you have a good view over the instruments and the road ahead.

Night Panel – designed to facilitate night driving. Press a button and the instrument panel, except for the speedometer, fades out. When attention is needed, the relevant instrument lights up.

Steering wheel controls – for the infotainment system and SCC. Gear shifting paddles for the optional Sentronic transmission.

SCC – Saab Car Computer. Integrated in the speedometer. Shows ambient temperature, fuel consumption, estimated distance on remaining fuel. You also get functions such as distance to destination, estimated time of arrival and speed warning.

Cruise control – helps to keep the car at the speed you set.

ACC – Automatic Climate Control. Different temperatures for driver and passenger. Electrostatic/carbon filter designed to help clean the incoming air from particles down to 0.004 mm in size. Designed to keep the passenger compartment free of dust, soot, pollen, and certain bacteria.

Ventilated sports seats – perforated leather and fans in the backrest and seat cushion help keep your body cool. (Optional)

Rear Parking Assistance – helps when parking in tight spots. Alerts you as you get close to an object behind the car. (Included in optional Visibility Package)

Ground control.

Drive the Saab 9-5 and get ready for true ground control. A unique fun-to-drive quality that is also vital for safer driving. Combining agility, sportiness and consistent behaviour. How? With a well-balanced and responsive chassis featuring stiff shock absorbers, thick anti-roll bars and progressive suspension. All fine-tuned for sharp handling, balanced with outstanding on-road comfort. Quite simply, the Saab 9-5 is a beautiful piece of engineering – designed for a truly rewarding driving experience.

Driver control

Standard equipment

- Front MacPherson struts
- Multi-link rear axle
- Twin tube gas shock absorbers all-round
- Front and rear anti-roll bars
- Disc brakes all-round, ventilated at the front
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Traction Control System (TCS)
- Electronic Stability Program (ESP®)
- Power-assisted rack-and-pinion steering
- ComSense system
- Night Panel
- Saab Car Computer
- Cruise control
- Integrated front fog lamps
- Windshield wipers with variable and intermittent speed
- High-pressure windshield washers
- High-pressure headlamp washers
- Rear window wiper/washer (SportCombi only)
- Heated exterior rear-view mirrors
- Steering wheel adjustable for reach and rake

Optional equipment

- Lowered sports chassis (Included in Aero Package)
- Xenon headlamps (Included in Visibility Package)
- Electrochromic mirrors (Included in Visibility Package)
- Rain Sensing windshield wipers (Included in Visibility Package)

Multi-link rear axle – with independent suspension and three links for each wheel designed to provide precise wheel control. Gives a certain degree of passive steering in curves and alerts you as you approach the limits of grip.

Chassis tuning – springs, shock absorbers and anti-roll bars are fine-tuned for a crisp, firm response.

Sports chassis – lowered 10 mm to provide enhanced stability and agility. Firmer springs and stiffer shock absorbers mean better body control, cornering and braking. (Included in Aero Package)

Rain sensor – starts the windshield wipers automatically. Adjusts wiper speed to suit the rain's intensity. (Included in the Visibility Package)

Electrochromic mirrors – automatically dims reflecting light from behind. (Included in the Visibility Package)

Xenon headlamps – gives a broader low beam and better curbside visibility. Beam length is adjusted automatically to maximize capacity and reduce the risk of dazzling oncoming traffic. (Included in Visibility Package)

High-pressure washers – three washer nozzles, each with two high-pressure jets, help keep the windshield clean.

Headlamp washers – powerful high-pressure jets help keep the lenses clean.

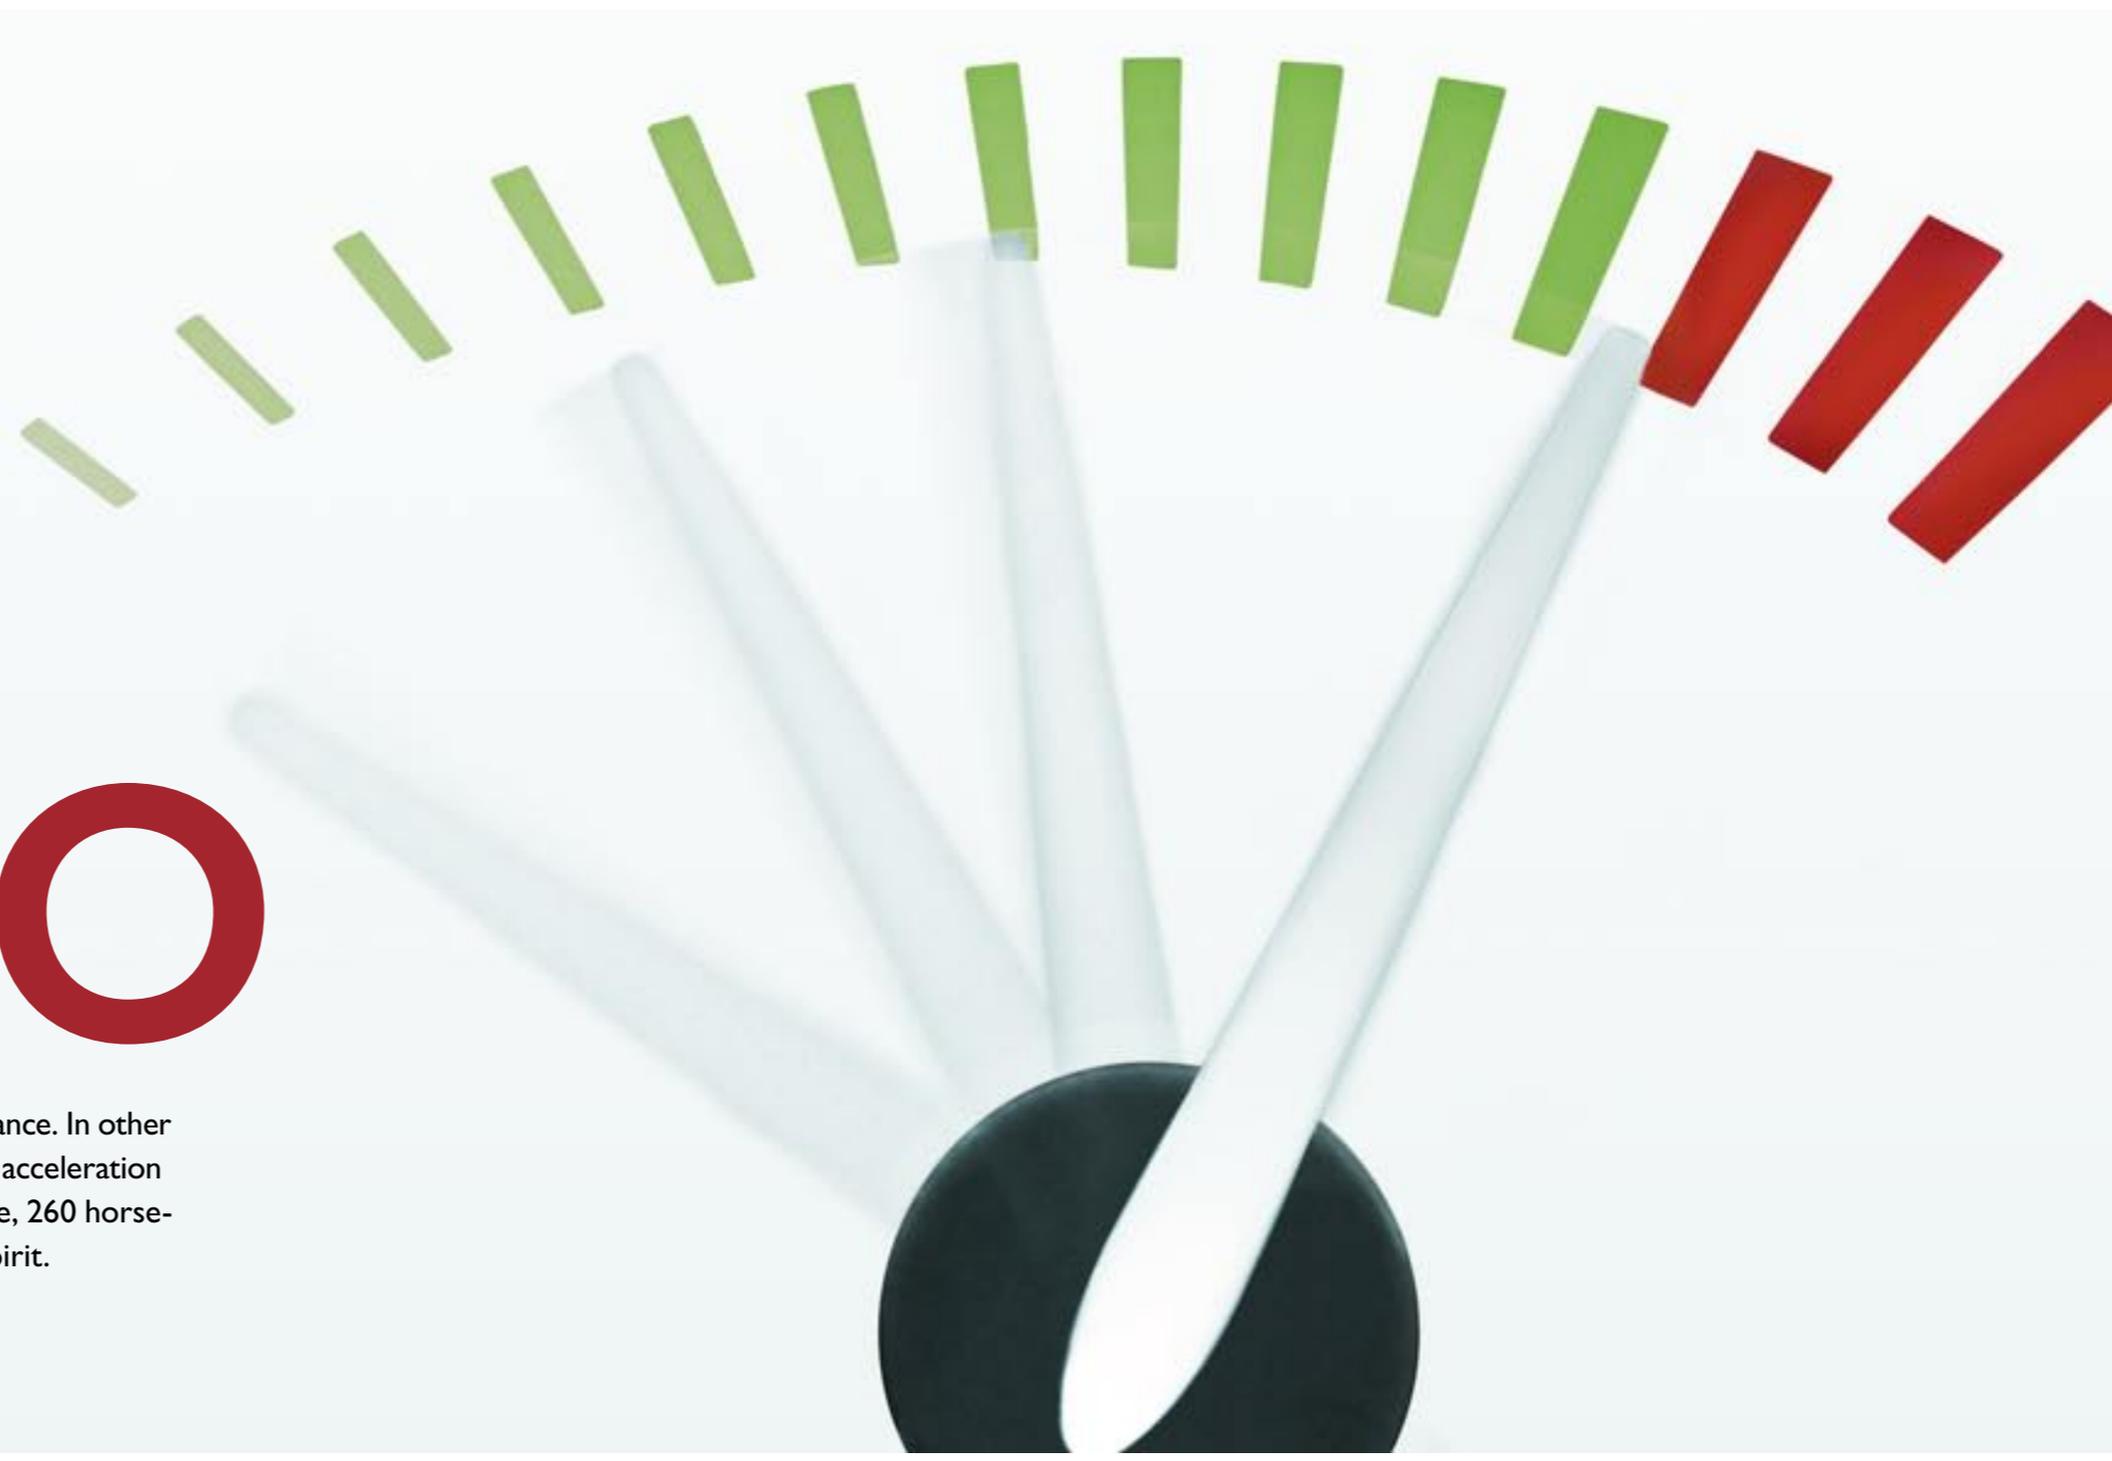

Powerful brakes – with robustly dimensioned discs, ventilated on the front.

ABS – Anti-lock Braking System. Designed to help allow firm braking with steering ability.

EBD – Electronic Brake-force Distribution. Designed to help distribute brake force between the front and rear wheels depending on how the car is loaded.

TCS – Traction Control System. Designed to help reduce spinning on a slippery surface by distributing drive force to the wheel with the best grip. Integrated in the ESP® system.

ESP® – Electronic Stability Program. Designed to help reduce skidding on a slippery surface. Brakes one or more wheels and, if necessary, reduces the throttle opening. If desired, ESP® can be switched off.

Saab Turbo

In the Saab 9-5 you can count on inspiring turbocharged performance. In other words, power, vitality and impressive mid-range torque for rapid acceleration and faster overtaking. Just press the accelerator and the 2.3-litre, 260 horsepower turbo engine instantly responds with that typical Saab spirit.

The powerful difference.

Saab revolutionized turbo technology 30 years ago – and we have been refining it ever since. Experience the Saab 9-5 engine with 260 horsepower and appreciate the perfection of turbo power.

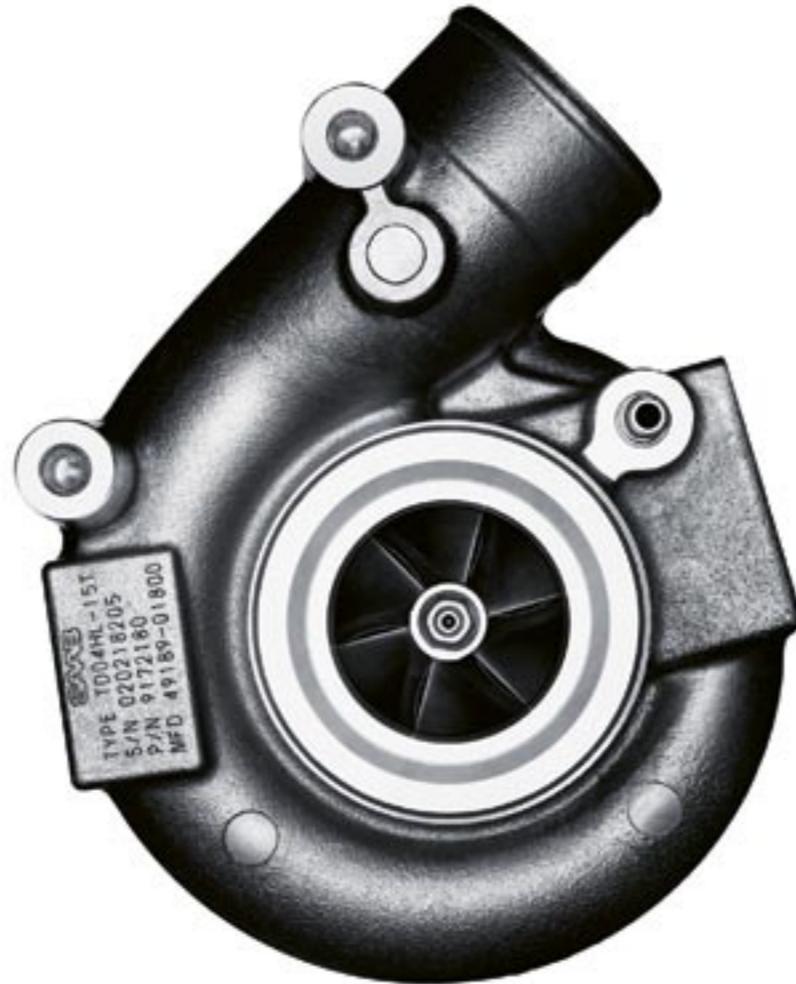

Engine and transmission.

Standard equipment

- 2.3 Turbo engine (260 hp/258 lb-ft of torque)
- Turbocharger
- Saab Trionic engine management system
- Intercooler
- Dual overhead camshafts
- 4 valves per cylinder
- Electronic engine management
- Coil-on-plug ignition
- Sequential multi-point fuel injection
- Manual 5-speed transmission

Optional equipment

- Sentronic 5-speed automatic transmission, including steering wheel paddles for manual shifting

Turbocharging – gives our engines high torque from low and medium revs. The 260 hp engine is equipped with a high-output turbocharger, offering a massive 258 lb-ft of torque from just 1,900 rpm.

Overboost – with manual transmission, an overboost function pumps out no less than 273 lb-ft for 20 seconds. Press the accelerator and the term “overtaking” will take on a whole new meaning.

Saab Trionic – one of the world’s most advanced management systems for turbo engines, developed by Saab. Analyzes combustion through ionization measurement.

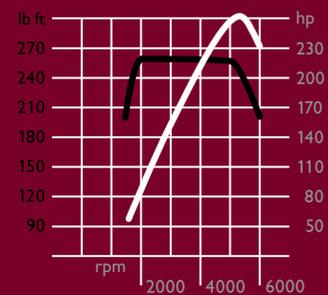

Sentronic 5-speed – automatic transmission (optional) that allows manual gear changes using paddles on the steering wheel. The current gear is indicated on the instrument panel.

Aero

Our passion for power is rooted in our aeronautical past. No wonder the high-performance Saab 9-5 Aero makes you feel like you're flying along the road. With even more intense power and sharper handling at your command. A sensational behind-the-wheel experience taking driving exhilaration to a higher level. Just fasten your seatbelt and prepare for a truly responsive flight – every time.

Ready for takeoff.

In the Saab 9-5 with the Aero Package you get more of everything. Sharper handling, sportier design and a unique interior with body-hugging sports seats. Press the accelerator and you'll enjoy a massive 258 lb-ft of torque from just 1,900 rpm. With manual transmission, an overboost function pumps out no less than 273 lb-ft for 20 seconds. Just remember to keep your eye on the speed limit.

Sports interior – the Saab 9-5 Aero features body-hugging leather sports seats with contrasting colours. A tinted metallic-effect fascia with a matching 3-spoke sports steering wheel underscores the performance theme.

Looks and sound – the Saab 9-5 Aero comes with 17" wheels with performance tires, integrated fog lamps and a visible sports exhaust providing a powerful sound.

Sports chassis – tuned and lowered 10 mm. Designed to provide enhanced stability. Special dampers, stabilizers and high-performance springs mean more precise steering response and better body control, cornering and braking.

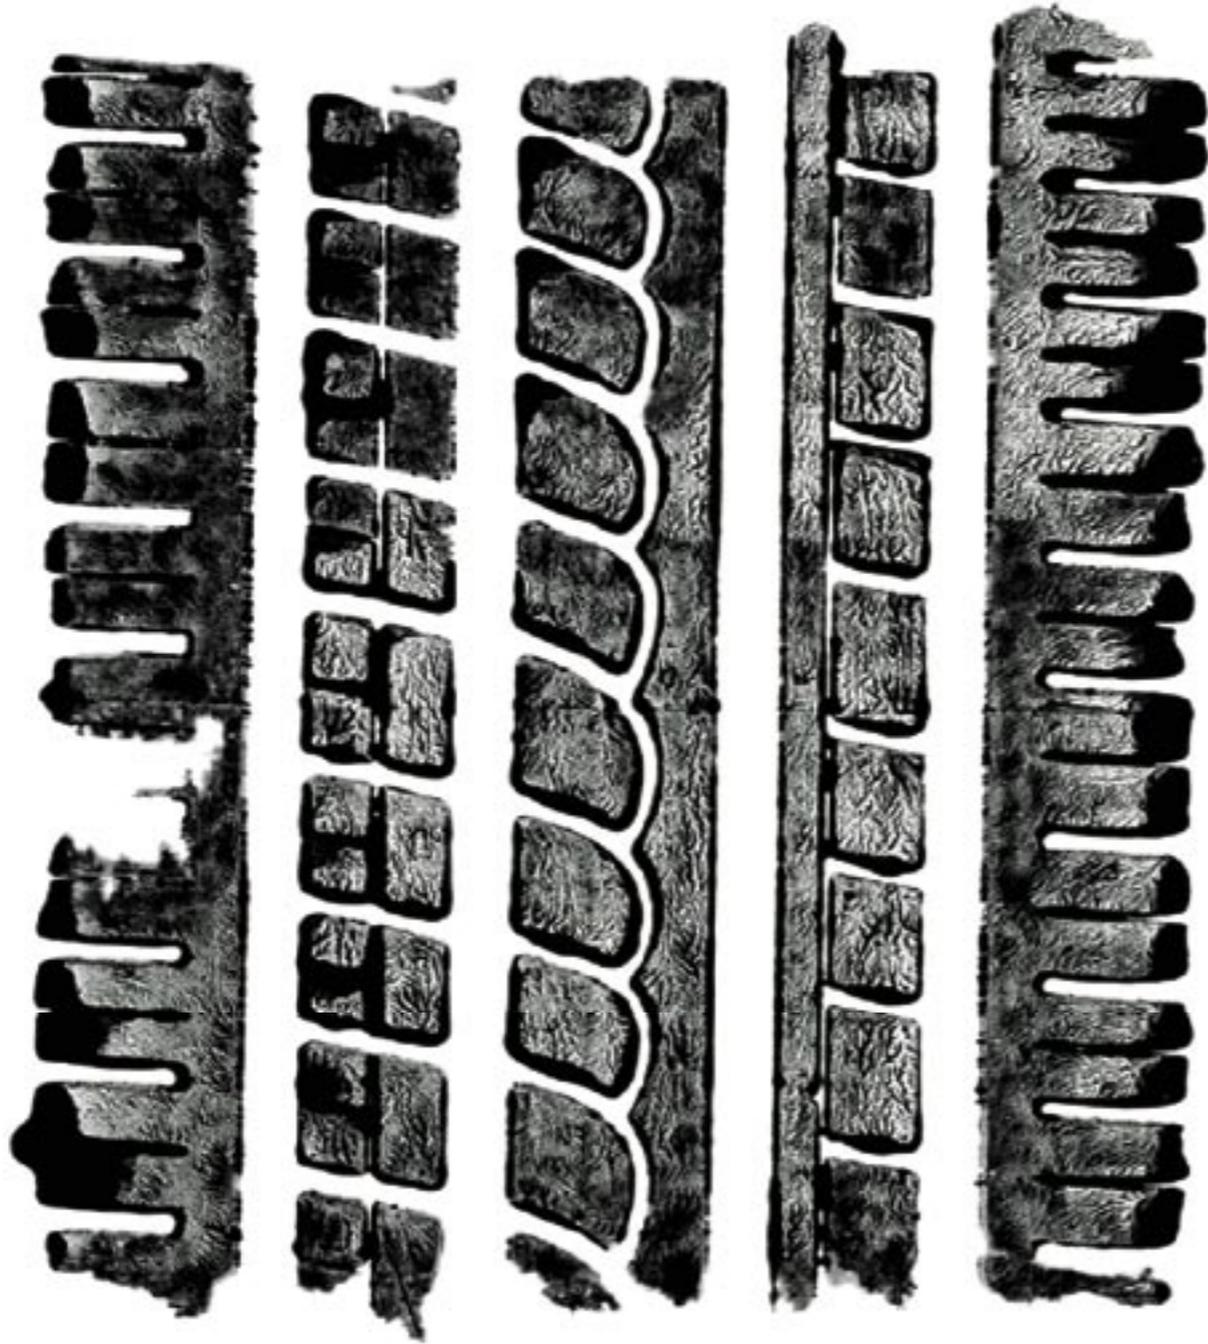

A warm welcome to our safety lab.

Saab cars are developed where other manufacturers come for test drives: in Scandinavia with its demanding climate and harsh winters. No wonder Saab cars are frequently ranked among the best in the world in various safety surveys. Yet our safety work is much more than award winning*. It focuses on what actually happens on the roads in real-life conditions. After all, our job is to help protect real people, not just dummies in a laboratory.

***"Safest car in Sweden"** – Saab 9-5. Ranked more than 30 per cent better than the average car in the Swedish insurance company Folksam report, "How Safe is Your Car?", 2005.

***Best Pick** – Saab 9-5. Maximum rating. U.S. Insurance Institute for Highway Safety (IIHS) frontal crash tests, 2004.

The Saab real-life safety approach has borne numerous innovations and intelligent designs. Like our award-winning active head restraints (SAHR) fitted in the front seats. They've earned the Saab 9-5 top ratings for protection against neck injury in rear-end collision tests conducted by Britain's Thatcham insurance research centre. Announcing the latest results, a spokesman* for the centre said: "Saab has been a benchmark for designing seats to help prevent whiplash injury."

SAHR

Saab Active Head Restraint

Maximum rating: Good – Saab 9-5 Sedan. For Saab Active Head Restraints (SAHR) in Britain's Thatcham insurance research centre crash tests, 2005.

Maximum rating: Good – Saab 9-5 SportCombi. For Saab Active Head Restraints (SAHR) in Britain's Thatcham insurance research centre crash tests, 2005.

* Thatcham Crash Research Manager, Matthew Avery, 2005

Five-star safety.

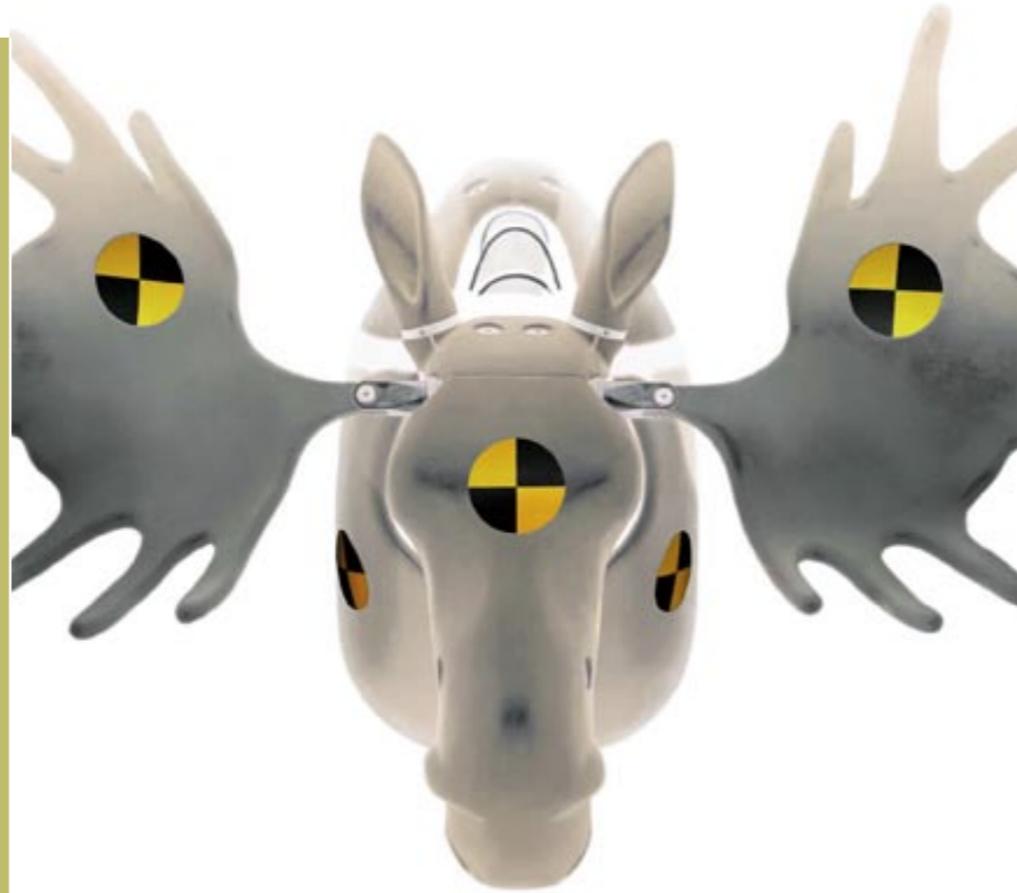

Standard equipment

- 3-point seat belts, all seats positions
- Seat belt pre-tensioners/load limiters, front
- Dual-stage air bags, front
- Head/thorax side air bags, front
- Passenger Sensing System (PSS), front
- Side-impact protection structure
- Anti-submarining, front and rear seats
- Saab Active Head Restraints (SAHR), front
- Adjustable (up-down) rear head restraints
- Active reminder for front seat belts
- Ignition lock installed in centre console
- Break-away pedals
- Child-safe rear door locks
- Child seat anchorage points, rear
- Load intrusion protection
- Load-securing eyelets (Sedan only)
- CargoTracks™, load-anchoring rails (SportCombi only)

Optional and Accessory equipment

- Cargo net (SportCombi only)
- Cargo guard (SportCombi only)
- Load nets

For more detailed information, please see the equipment and options on page 60.

Interacting safety systems – crumple zones, safety cage, air bags, seat belts and the active head restraints (SAHR) are just some of the safety systems designed to help protect you and your passengers. They interact to absorb and help distribute impact energy efficiently.

Dual-stage front air bags – designed to register the crash force and monitor whether the belt is being used. The system adjusts air bag deployment to suit, either to the maximum or with lower pressure.

Passenger Sensing System (PSS) – designed to monitor the front passenger seat with regard to whether the occupant is heavy or light, whether a child seat is fitted or if the seat is empty. The system is configured not to deploy the frontal air bag if the seat is unoccupied or if the system registers a small occupant below a certain weight or a child seat. Air bag status 'on/off' is displayed via the PSS lamp in the instrument panel.

Five stars – top rating in the European New Car Assessment Program (EuroNCAP) crash tests for side impact. For more information about the independent EuroNCAP safety institute, please visit www.euroncap.com.

Side air bags – high, two-part side air bags fitted in the front seat's backrest help protect both the head and thorax.

Robust B-pillar – designed to work as a pendulum and bend inwards at the bottom to lead crash forces away from the occupants.

CargoTracks™ – in the Saab 9-5 SportCombi allow you to secure different types of load. Together with the sturdy backrest, you can count on world-class load-shifting protection.

Broad front structure – designed to protect in frontal crashes from a variety of angles and objects. Crash boxes and front beams are designed to deform in a controlled manner to help absorb the impact energy.

Reinforced doors – with protective beams and overlapping sills that help prevent door intrusion into the cabin.

Safety cage – in high-tensile steel. Designed to shield the occupants. Sandwiched between crumple zones front and rear that are designed to absorb and dissipate crash forces.

Just fly away.

The Saab 9-5 is opportunity on wheels. Always ready to integrate with your daily needs. At work, with your family or on the way to your favourite activity. With the versatile SportCombi version, you get even more space and flexibility. And with the right accessories you open up for true adventure and discovery. Just gear up and get going.

Bike holder with lift – the bike is inserted at door height, then lifted with the help of gas-filled struts and secured to the roof rack. Lockable. (Accessory)

Kayak/canoe holder – with adjustable rubber supports that mould to the hull. Robust tensioning straps. (Accessory)

Roof rack, C-track – quick-release fasteners for easy fitting. Made of anodized aluminum. (Accessory, SportCombi only)

What you can't fit inside your Saab 9-5, you can easily carry outside. Simply choose from our wide range of specially designed roof racks and holders and you can bring along all the bikes, skis and boards you want.

Flexible space – 1,042 litres of cargo space expand to 2,067 litres when you fold the rear seat backrest.*

Easy loading – wide opening, hidden gas struts, recessed bumper and flat floor.

Cargo net – separates the passenger and luggage compartments. Gives the occupants added protection. (Accessory)

Parcel shelf – rigid shelf that protects the luggage compartment from prying eyes. Easy to fold and remove. (Accessory, SportCombi only)

* Cargo and load capacity limited by weight and distribution.

With our unique CargoTracks™ embedded in the luggage compartment floor, almost anything you pack can be secured for enthusiastic driving. Together with the sturdy backrest, you can count on load-shifting protection.

Versatility and convenience.

Standard equipment

- Integrated cup holder in instrument panel
- Cup holders in the rear seat
- Rear seat split/fold (60/40)
- Ski hatch*
- Parcel shelf**
- 12 V power outlets, on centre console and rear centre console
- CargoTracks™**
- Load securing eyelets*
- Storage pockets in front and rear doors
- Net pocket, passenger side of centre console
- Floor mats

Optional equipment and accessories, examples

- Storage tray**
- 12 V power outlet, luggage area**
- Cargo nets
- Cargo guard and space divider**
- Cargo mats
- Storage box
- Roof rails**
- Roof racks
- Ski/snowboard holders
- Ski/luggage boxes
- Bike holders for roof rack
- Kayak/canoe/surfboard holders

* Sedan only. ** SportCombi only.
For more detailed information, please see the equipment and options on page 60.

CargoTracks™ – load-anchoring rails in the luggage compartment floor. The optional movable eyelets make it easy to secure loads using straps or nets. (SportCombi only)

Storage tray – keeps smaller items protected under the luggage compartment floor. (Accessory, SportCombi only)

Ski hatch – in the rear seat to accommodate long items. (Sedan only)

Cargo guard – metal guard that separates the passenger and luggage compartments. (Accessory, SportCombi only)

Cargo space divider – fitted together with the cargo guard. Convenient when travelling with pets. (Accessory, SportCombi only)

Scratch protection/seating mat – rolls out from the luggage compartment to protect the bumper. Easily removed for use as a waterproof seating mat. (Accessory, SportCombi only)

Cargo nets – for the side and floor in the luggage compartment. Keeps light items in place. Floor cargo net for SportCombi only. (Accessory)

Split/fold rear seat – split 60/40. Expands luggage capacity when you need more space.

Bag holder – mounted under the parcel shelf. Four hooks for holding shopping bags in place in the luggage compartment. (Accessory)

Cargo mat – made of rubber. Protects the carpeting from dirt, water and wear. (Accessory)

Bike holder, towbar mounted – space for two bikes (three with an adapter). Fold-down function for easy access to the luggage compartment. (Accessory; not available in Canada)

Extending ski/board holder – slides out from the car roof for easy loading and unloading. Holds six pairs of skis or four snowboards. Lockable. (Accessory)

Remote central locking
– control buttons integrated in the key.

Courtesy lights – with dome-lamp and theatre dimming.

Heat absorbing glass – in all windows. Reduces heat from solar radiation.

Rear air vents – for the ACC. Fresh air for rear seat passengers.

Cup holders – in the rear seat. Unfolds to accommodate two cups.

Split sun visors – allow you to have one sun visor in front of you and one alongside the window.

Moonroof – made of glass with interior shade. Power operated.

Powered front seats – with three different memory settings for driver's seat and door mirrors.

Front armrest – covers a large storage compartment. Adjustable.

Cup holder – integrated in the instrument panel.

Cooled glovebox – for soft drinks or anything you want to keep cool.

Inflight entertainment.

Head off to anywhere and the advanced infotainment system in the Saab 9-5 will guide you and keep you entertained. The integrated optional navigation system can give inspiring tips along the way. All while you enjoy the beat from your favourite music in the powerful sound system.

Audio, navigation and communication.

Standard equipment

- XM Satellite Radio¹
- Saab Infotainment
- Prestige 200 Watt harman/kardon[®] Sound System
- CD changer, 6-disc, in-dash
- Audio control buttons in the steering wheel
- Radio antenna, integrated in the rear window

Optional equipment

- Saab Infotainment Plus with DVD navigation*
- OnStar[®] In Vehicle Communications System including one year of the Safe and Sound Plan

Navigation* – included in Saab Infotainment Plus. DVD-based navigation system utilizing GPS information. Voice guidance and clear directions in different perspectives on the large colour touchscreen. Address book for storing favourite destinations.*** (Optional)

XM Satellite Radio[®] – Features up to 100 channels with commercial-free music and the best in news, sports, comedy, talk and more. Digital quality sound with coast-to-coast signal coverage. Includes three trial months, beyond which service fees apply.

Steering wheel controls – for convenient and safer operation of the Infotainment system.

DVD disc – with maps and facts covering most of North America. Detailed information with about 700,000 points of interest, including hotels, restaurants, recreation sites, filling stations and much more.

OnStar** – OnStar In Vehicle Communications System and Assistance Service, including one-year Safe and Sound plan provides you with 24-hour access to advisors who can help in a variety of situations. If your air bags deploy, an advisor will receive a signal, call in to the vehicle and contact emergency services. (Optional)

Saab Infotainment CD Changer – includes AM/FM stereo tuner with RDS, MP3-compatible 6-disc single-slot fascia-mounted CD changer and AUX connection for portable audio equipment.

Saab Infotainment Plus – includes AM/FM stereo tuner with RDS, MP3-compatible CD player, 6-disc CD changer in the luggage compartment, 6.5" colour touchscreen and DVD navigation***. (Optional)

Six-disc CD changer – installed in the luggage compartment with Saab Infotainment Plus.

Telephone holder – in the centre console compartment. (Accessory; not available in Canada)

MP3/AUX connection – allows you to plug your MP3 player or other portable audio equipment into the car's audio system. (Saab Infotainment CD Changer only)

harman/kardon[®] Sound System – with eight loudspeakers including separate subwoofer (SportCombi) and nine loudspeakers including two subwoofers (Sedan) and a total amplifier output of 200 W.

¹ Includes three trial months beyond which service fees apply. For more detailed information, please see the equipment and options on page 60.

* At time of print, detailed Map Coverage is available for most urban areas of the United States and for certain metropolitan areas in Canada (Quebec City, Montreal, Halifax, Ottawa, Toronto, London, Windsor, Edmonton, Winnipeg, Calgary and Vancouver). Coverage is limited outside these areas. Includes Navigation Disk updates on 1st and 2nd anniversary of purchase.

** OnStar includes 12 months of the Safe & Sound package. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signal to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription service agreement required. Call 1.888-4-ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Policy and system limitations and details.

*** DVD Navigation and XM Satellite Radio are not available together.

What's your altitude?

Fine-tuning your Saab exactly the way you want it is easy and inspiring. Simply choose between the dynamic Sedan and the versatile SportCombi. For truly high performance and sporty looks, head directly for the Aero Package versions. Once you have made your choice, you can tailor your car with options and accessories exactly as you wish. Explore all the possibilities and design your own Saab at saabcanada.com.

Saab 9-5 2.3 T

The Saab 9-5 interior is a modern interpretation of classic elegance. Inside you meet a dark walnut fascia with matching door trim and leather appointed upholstery with looped stitching.

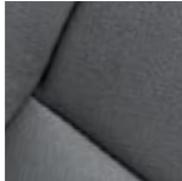

- Examples of equipment**
- 260 hp 2.3 Turbo engine
 - 17" Twin 5-spoke light alloy wheels
 - Electronic Stability Program (ESP®)
 - Body-coloured door handles and side mouldings
 - Front fog lamps
 - Dark walnut fascia and door trim
 - Leather appointed upholstery
 - Sport leather-trim steering wheel
 - Leather-trim gear lever
 - Power adjustable heated front seats
 - Power operated glass moonroof
 - Automatic Climate Control (ACC)
 - Saab Car Computer (SCC)
 - XM Satellite Radio**

** Includes three trial months beyond which service fees apply.

The key to security.

Theft protection in the new Saab 9-5 has been developed in close co-operation with leading European insurance companies. It's quite simply among the best on the market. The system counters both break-ins and theft of the car itself.

Coded key – remotely operates the central locking. Rolling digital codes make it virtually impossible to copy the code.

Door locks – protected against tampering. If anyone tries to force the door lock, it spins uselessly. Deadlocks prevent the doors being opened from inside after a break-in.

Locked wheels – the gear lever and transmission must be in reverse (or P for automatics) before you can take the key out of the ignition.

Immobilizer – the car's electronic units will only accept the code from the correct key.

Protected audio equipment – vital parts are digitally "married" to each other and to the car, so they only work in your particular car.

Saab Anti-theft Alarm – reacts if someone tries to enter the car. Remote controlled via buttons in the key. Includes a "panic-function" whereby pressing a button triggers the alarm.

Follow-me-home – headlamp illumination for 30 seconds when leaving the car.

First class amenities.

Buying and owning a Saab 9-5 is as inspiring as driving it. Our wide range of programs make it easy, secure and economical for you to own and drive your car. Please ask your Saab Retailer for more information, or visit saabcanada.com.

Your Ownership.

At Saab, one of our top priorities is customer satisfaction. Our aim is to offer an ownership experience, which develops into a long-term partnership based upon mutual benefit and pleasure. To preserve this commitment from the very outset, we have built your Saab to standards which reflect the tradition of quality and responsibility that our name

represents. But it goes well beyond that. As a Saab customer, you can count on Saab's commitment to excellent service from the moment you approach a Saab Retailer and throughout your entire ownership. This pledge is the very foundation of all Saab's interaction with you. And you will find evidence of this commitment everywhere.

Limited Warranty – a 4-year/80,000 kilometre, whichever comes first, limited new-car warranty and a 6-year anti-perforation warranty applies to every new 2007 Saab 9-5. Ask your Saab Retailer to provide the terms and conditions of these limited warranties.

Powertrain Warranty – in addition to the New Vehicle Limited Warranty, General Motors will warrant each 2007 model year passenger car for 5 years, or 160,000 kilometres with no deductible, whichever comes first, from the original in-service date of the vehicle, for warrantable repairs which are required as a result of defects due to material and/or workmanship to the Powertrain components. See your Saab Retailer for terms and conditions.

Saab Roadside Assistance – offers emergency help around the clock anywhere in Canada and in most of the U.S. during the warranty period of 5 years, or 160,000 kilometres, whichever comes first. Terms of the Roadside Assistance agreement are available at your local Saab Retailer.

Courtesy Transportation – during the warranty coverage period of 5 years or 160,000 kilometres, whichever comes first, alternate transportation and/or reimbursement of certain transportation expenses will be available under the Courtesy Transportation Program if your vehicle requires warranty repairs. Several transportation options are available. See your Saab Retailer for terms and conditions.

The 17-inch all-season tires have a lower aspect ratio that aids performance and handling. However, in order to avoid tire, rim, or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For further information on all these topics, please consult the Owner Manual, your local Retailer or call 1-888-888-SAAB.

Three-way catalytic converter and Lambda sensor.

Fuel tank capacity

70 litres (15.4 imp. gal.)

Transmission

Transverse front-wheel drive unit with 5-speed manual transmission or optional Sentronic 5-speed automatic transmission with manual shift capability. Direct mechanical lock-up in third, fourth and fifth gears.

Traction Control System (TCS)

Designed to help provide better control of the available traction by distributing the power to the drive wheel with the most traction by applying the brakes and reducing the engine power, if necessary.

Electronic Stability Program (ESP[®])

Designed to help reduce the tendency of the car to slide by comparing the steering wheel input with the car's movements. Designed to apply the brakes to one or more wheels and if necessary, reduce the engine power.

Steering

Power-assisted rack-and-pinion steering. Steering wheel adjustable for angle and reach.

Turning circle:

11.3 m (37.0 ft.) curb-to-curb.

Brakes

Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD). Power-assisted 4-wheel disc brakes, ventilated front.
Handbrake acting on separate rear brake shoes.

Front suspension

MacPherson struts with twin tube gas shock absorbers and anti-roll bar.

Rear suspension

Multilink independent rear suspension. Rear axle with rubber suspended subframe, one longitudinal and two transverse links for each wheel.
Struts with gas shock absorbers.
Anti-roll bar.

Luggage compartment, Sedan

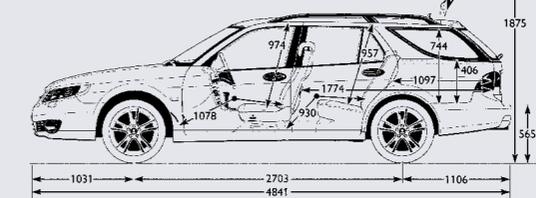

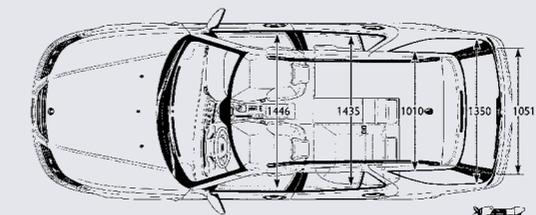

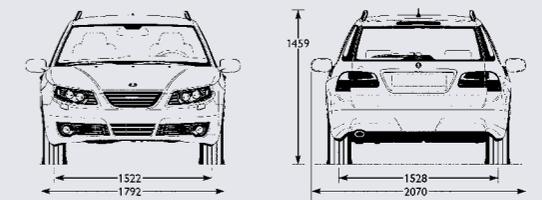

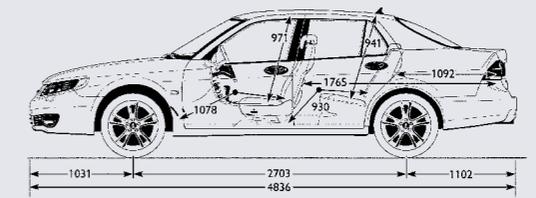

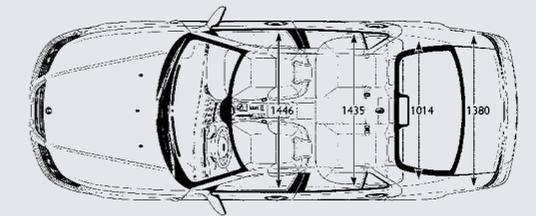

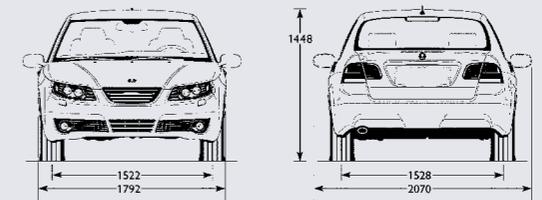

Volume with rear seat in upright position 450 litres (15.9 cu. ft.).
Rear seat folds down completely or splits 60/40.
Pass-through for long items behind rear seat armrest.

Luggage compartment, SportCombi

Volume with rear seat in upright position 1042 litres (36.8 cu. ft.).
Removable parcel shelf.
Rear seat folds down completely or splits 60/40.
Volume with the entire rear seat folded is 2067 litres (73 cu.ft.).
The rear seat bottom cushion can also be removed for extra space.

Weights

Max. trailer load: 900 kg (2000 lb.)
Max. roof load: 99.8 kg (220 lb.)
Curb weight approx.: 1574–1665 kg (3470–3670 lb.). (Sedan)
Curb weight approx.: 1642–1730 kg (3620–3810 lb.). (SportCombi)

Dimensions shown in millimetres.

5-spoke Double Wing 17"×7½"

5-spoke Twin 17"×7½" (ALU 62)

10-spoke 17"×7" (ALU 39)

5-spoke EVO 17"×7" (ALU 52)

7-spoke Twin 17"×7" (ALU 55)

6-spoke Split 17"×7"

10-spoke Sculpted 16"×6½"

9-spoke Double 16"×6½" (ALU 54)

Important Information

Assembly

The 9-5 and its components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

An Important Note About Alterations and Warranties

Installations or alterations to the original equipment vehicle (or chassis) as distributed by Saab are not covered by the New Vehicle Limited Warranty and Powertrain Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by Saab or GM. Saab and General Motors are not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

Important Words About This Brochure

We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the Saab Retailer or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of the printing, please check with your Saab Retailer for complete details. Saab reserves the right to lengthen or shorten the model year or any product for any reason, or to start and end model years at different times.

A Note About Child Safety

Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle's Owner Manual and child safety seat instructions for more information.
